An In-Depth **Frontend Web Design**
Workshop for Aspiring Developers
and **Creative** Professionals

About Me

My Name is Essam Mohamed

a passionate developer who enjoys turning ideas into clean, efficient, and functional code. I thrive on solving problems, learning new technologies, and building digital experiences that make an impact.

Web Designer

Educational Background

I've built my academic journey step by step — from strong foundations in school, and advanced technical knowledge in college.

Great Highschool, 2017-2020

My school was the foundation of my educational journey. It's where I developed essential skills

Institute of Technology, 2021-2023

The institute was where my education began to take a more focused direction.

Beni-Suif University, 2024-2028

The technological college was a turning point in my academic and professional growth. It provided a deep dive into modern technologies, programming, and problem-solving.

Skill Abilities

developer with a strong foundation in web and software technologies. Focused on building clean, responsive, and efficient digital solutions.

HTML CSS JS

Proficient in building structure and style web pages.

Bootstrap Tailwind

Experienced in creating responsive

C++ Python

Skilled in both object-oriented and high-level programming.

Freelance Web Developer

- Created portfolio websites for clients using modern web technologies.
- Optimized sites for performance, SEO, and mobile responsiveness.

Programming Projects

Front-end Developer

Presentations are communication tools that can be used as demonstrations, lectures, and more.

Work Experiences

A summary of my practical experience, internships, and projects that reflect my technical and professional growth.

Offered Services

Web Design

Designing clean, modern, and responsive websites that align with your brand identity and user needs.

Front-End

Building responsive and interactive websites using HTML, CSS, JavaScript, and modern frameworks.

A range of web and design services tailored to meet client needs with quality and efficiency.

Front-End Development – Clean, responsive, and interactive websites.

Projects Previous Work

Chefer

Restaurant Website – Designed and built a full-featured restaurant site with menu and contact sections.

Company

Created a clean, user-friendly product showcase website with dynamic layouts and categorized item displays.

These projects reflect my ability to build modern, responsive websites tailored to different business needs — from food services to product presentation.

Training Certificate

Verified courses and trainings that enhanced my
technical and professional skills.

NTI – Web Designer , 2025

Focused on **HTML**, **CSS**, **js**
principles, and responsive
layouts.

Freelancer Skills , 2025
